Climate resilient rangelands workshop

CDU Katherine Campus, NT
10- 11 June 2025

Speakers include:

Dr David Augustine - United States Department of Agriculture
Dr Jason Sircely – International Livestock Research Institute, Kenya

Day 1 10 June: 10:00 am-4:00 pm: Producer focused

Learn about research from the USA, Africa and Australia and how it could be implemented on your property. Paddock walks and facilitated discussions. Catering provided

Day 2 11 June: 9:00 am – 3:00 pm: Researcher focused

Join with researchers from across Australia and the world to discuss potential projects and papers and linking of long-term monitoring sites for resilient rangelands research. Producers are also welcome. Catering provided
